

## Honeycomb Vent / Filter

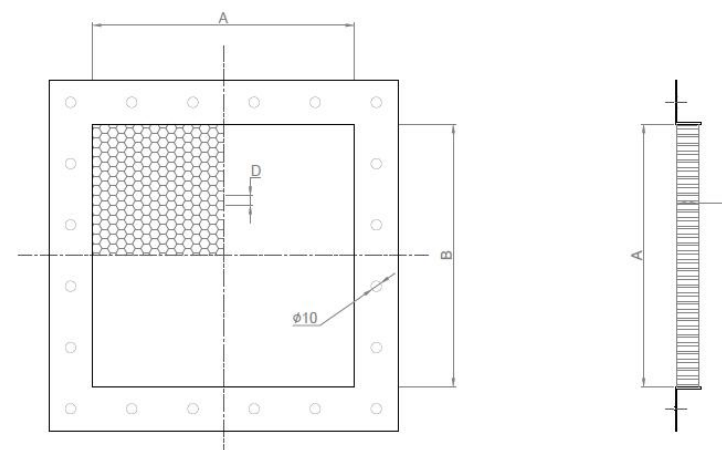

PEHF series honeycomb vent is widely used in EMC shielding field. for the air refresh system of the RF shielding room, microwave chamber or RF shielding box.

The available materials are carbon steel, brass, stainless steel copper or aluminium.

The choice of the honeycomb vent with the best design is based on the RF shielding performance and air flow.

Regular Size(mm)			
Vent Size (A*B)	Thickness(C)	Cell Size(D)	Without/With Frame
300*300	12.7 25 50	3.2	√
450*450		4.2	
600*300		5.2	
600*600			
Materials: Steel, Brass, Copper, Aluminium, Stainless steel			
<b>Customized acceptable</b>
